

PRESS RELEASE

13 October 2010

The Management is pleased to announce the completion of Installation and Display Design Works of Digital Signage System at **OCEAN PARK**, Hong Kong.

The Ocean Park Digital Signage System is a closed Web based system with Content Management Server located at the Administration Complex. The **MOST DISTINCTIVE** Feature of the system is the **THREE** Double 52" HD LCD display with synchronized stories flows. The kiosks are tailored to the theme park environment with **WATERPROOF (IP64)**, **WEATHER SHIELDED** with **SPECIAL VENTILATION SYSTEM**.

The Content Management System delivered introduction of the haunted houses with **synchronized videos, Shows & Queuing Time**, and **corresponded to the locations showing on the Guide Map**. The result is a comprehensive directory for the tourists to enjoy the event. It creates a warm and fun atmosphere to the Park.

The Ocean Park Project demonstrates the strength of Cybersys in providing turnkey solution in software programming, hardware design, graphic designs, and support service in Digital Signage.
